## LETTER FROM THE PRINCIPAL

Dear Music Aspirant / Professional,

I'm excited to be able to offer you our fine college programs. Sai Nanak College of Music will help you achieve your aims by exposing you to the learning techniques of the MOST EFFECTIVE music teachers, the seldom revealed practice techniques of the MOST INSPIRING performing musicians, and the compositional techniques of the MOST MUSICAL writers, arrangers, and orchestrators. You'll use the FINEST music study materials and resources, many unpublished, that the world has to offer.

You'll be taken step-by-step through dozens of the most powerful creative techniques ever discovered. (Some are so secret that only a handful of people know what they are... so secret that they are not taught yet in other music schools. Playing your own uniquely inspired music will be easy for you once you know and internalize these SECRETS. Making a comfortable living as a Professional Musician will be achievable once you know and master these TECHNIQUES and LESSONS. You'll discover these things as a Sai Nanak College of Music (SNCMPA) student, in our proven courses, as you build a solid foundation for a career in music or a lifetime of self-expression. You'll be taken step-by-step through dozens of the most powerful creative techniques ever discovered. Your days of study will be packed with ideas, techniques, resources, and challenges to assist your musical growth.

Ten years ago, I founded Sai Nanak - Music School ( Sai Nanak Talent Academy), a school for Music aspirants designed to reduce the cost of a quality music education while delivering the very best information and training.

You can download the Prospectus and the admission form or contact me for details.

After you have read the Catalog and Application, please contact me to discuss your future.

My Very Best to You,

Inderjeet Singh,  
Principal,

# Preface

**Core Music Courses:** In these foundational courses, we'll proceed together step-by-step through each and every skill and technique you need to know. You'll be shown examples of each technique, and given an assignment to implement it, so you'll be able to use it yourself. The core music courses will give you a firm foundation for your career in music. Even if you have been working professionally for years, you will find exciting new concepts in the core courses that will give your musicianship inspiration; essential techniques and materials that you are hearing about for the first time.

**Additional Advanced Courses:** You'll be given a thorough training in the advanced concepts of modern improvisation and arranging. For experienced musicians, this is where the gaps in your knowledge will be filled-in. And even if you have been making records for years, you will find a new well-spring of creativity as you work with USSCM staff to tailor your courses to your personal needs.

**Music Learning Strategies:** You will learn breakthrough psychological concepts which will help you leverage and improve your talents and supercharge your abilities to communicate with various kinds of audiences and listeners.

**Music Technique Strategies:** You will take a new course in "Peak Conditioning for Musical Athletes", which is also the subject of a book in progress.

**Inside the Music Business:** This is our new music-business course which explains the industry from the inside, and gives you an opportunity to attend exciting trade shows as a USSCM guest.

**Improved Examples:** The musical examples given in the courses have been reviewed for relevancy and updated.

**More Styles:** We've added more musical styles, and the basic styles have been expanded.

You would be updated and trained also for:

Treating your career as a business - getting serious about making a living in music.

Public relations - how to market yourself effectively.

Music publishing - from traditional to ebooks.

Music magazines - from paper to ezines. How to use them to your advantage.

Record distribution - how to be streetsmart.

Computer Technology - how to use it to achieve your aims in the most cost-effective and timely way. How to avoid letting it take over your life.

Music Technology - How not to get LOST IN THE SHUFFLE created by music manufacturers who want you to buy something expensive and new every six months.
